🎓 Education

University of Lodz
Master's in Computer Science
Oct 2024 - June 2026

Abdul Kalam Technical University
Bachelor of Technology in Computer Science
Completed in 2021

🧩 Skill

- Programming Languages: C#, JavaScript, HTML, CSS
- Frameworks & Technologies: ASP.NET, ASP.NET MVC, Angular, DotNetNuke (DNN)
- Databases: Microsoft SQL Server, Oracle SQL
- Tools & Platforms: Visual Studio, Mantis (Bug Tracking)
- Development Methodologies: Agile (Scrum), Lean Development, SOLID Principles

🏅 Awards

Oct 2023 | Arthur J. Gallagher
Star Performer Award

Aug 2022 | Arthur J. Gallagher
Star Performer Award

Profile

Motivated Software Engineer with 3 years of experience specializing in .NET, C#, and SQL Server, currently pursuing a Master's in Computer Science. Adept at backend development, optimizing high-performance systems, and working in Agile environments. Passionate about cloud technologies, distributed systems, and contributing to scalable, innovative solutions. Ready to leverage technical skills and collaborative mindset to contribute to Relativity's dynamic team.

Work Experience

Nov 2021- Oct 2024
Arthur J. Gallagher & Co., Chandigarh, India

Associate Software Engineer

- Utilized C# and Microsoft SQL Server to develop and maintain scalable .NET applications, ensuring performance, security, and cloud-readiness.
- Designed and optimized a SQL-based Calculation Engine, improving data processing speed by 30%, aligning with Relativity's focus on large-scale data systems.
- Refactored legacy systems to improve efficiency and integrated client-requested features using Agile and Scrum methodologies.
- Conducted penetration testing and implemented security enhancements to maintain application integrity, reflecting Relativity's emphasis on secure software.
- Collaborated cross-functionally with QA and production teams to enhance user experience and accelerate project delivery by 20%, echoing the collaborative culture at Relativity.
- Participated in Agile ceremonies including sprint planning and retrospectives to support iterative delivery of features in a Scrum team environment.
- Mentored a junior developer on clean code practices and technical documentation, showcasing leadership in peer development.
